#### **MOBILITY.**

With virtual maps, amenity icons, on-site image capture, and color-coded statuses, you'll see work orders come to life.

#### **SIMPLICITY.**

Managing communication shouldn't be hard. SmartWorkOrders uses automated triggers for targeted workflow management. From the back office to your Android or iOS device, we've got you covered.

#### **FLEXIBILITY.**

Whether it's user access or interface configuration, we've thought of it. You're in control of who can view, edit, and manage SmartWorkOrders.

*Enjoy a time-saving, paperless work order management solution.*

*Customized fields allow for association-level configuration.*

*Dynamic updates sync activity in the field to the office in real time.*

*Automate communications with time-based workflow technology.*
